WE DESIGN IT

Let us help you with your shower design. Provide us with the size of the space you are working with, and a general idea of what you want to achieve with your shower, and we can do the rest. Using our 3-d CAD software, we can create accurate renderings to show you how your shower will fit into your plans.

WE CRATE & SHIP IT

We can crate and safely ship your prefabricated shower kit direct to your project. Great national freight rates available - ask us for a rate quote on your next shower kit.

UNPACK CRATE

We ship Ready-4-Tile shower kits crated with everything you need to install. After your modular shower kit is unpacked the system installs in just 4 easy steps.

READY-4-TILE BENEFITS

- Pan and wallboard are 100% waterproof
- Inorganic material; no food source for mold and mildew
- Huge labor savings; installs in hours not days
- Modular walls are easy to stack; no setting of individual blocks
